6

1. Comment. It is unknown, whether these shipments were consigned to civilian commercial installations or were for the VP. 25X1

2. 25X1

3. Comment. This is the first shipment observed as being dispatched to the Clothing Depot of the Third Shock Army after it moved from Schoenebeck/Elbe to Koenigsborn in July 1952. 25X1 25X1

4. Comment. It appears that this shipment dispatched from Bad Freienwalde to Kuestrin on 3 November was reported for the first time. As a discharge processing point for units of the Fourth Gds Army was located in Freienwalde from mid-September to about 20 November, it is believed that the soldiers observed were dischargees of this army. 25X1

5. Comment. This shipment undoubtedly consisted of flour sent to the Muellrose flour depot, which is assigned to the ration supply depot of the GOFG at Muellrose 25X1 25X1

6. Comment. Incomplete information on Soviet supply traffic indicates a handling of 242 railroad carloads on 16 days in September; of 275 carloads on 16 days in October; and of 363 carloads on 23 days in November. This rate of supply traffic may be considered normal. Minor supply shipments which are currently included in reports on specific Soviet supply installations, were not included in the present report. 25X1
